26th PAN BORNEO INTER CLUB MEET

Kuching, 15 - 17 November 2013

The Rotary Club of Kuching Central was very honoured to be given the opportunity to host the 26th Pan Borneo Inter Club Meet in Kuching, Sarawak.

The Meet attracted a total of 171 participants, which is a record for such an event.

The Pan Borneo Inter Club Meet is a unique event in Rotary District 3310 as it brings together all the Rotary clubs in Sarawak, Sabah, Brunei Darussalam & Labuan F. T. as well as any other interested Rotary clubs in our District and other Districts. We also have participants from Pakistan, Singapore and many parts of West Malaysia. It was a gathering of fun learning and entertainment with lots of opportunities to enjoy fellowship, renewal of friendship and to make new acquaintances. At the same time, Rotarians can do good in the world by implementing a meaningful project that can benefit our local community. After all, Rotary is service through fellowship.

Pan Borneo Project

In conjunction with this event, a Rotary Pan Borneo Landscape and Beautification Project was carried out in a prominent area at the Sarawak Heart Centre, Kota Samarahan. As is the tradition of the Pan Borneo Inter Club Meet, this Pan Borneo Project was funded with RM1,000 contribution from each Rotary club located in Pan Borneo. All the 22 clubs in Pan Borneo contributed to the project. The Sarawak Heart Foundation also contributed RM10,000 towards the project.

This project was carried out to complement the refurbishment works that will be carried out on an unused old site building for conversion into a hostel at the Sarawak Heart Centre to provide free accommodations for the poor and underprivileged needy people from the rural areas and those from outside Kuching to stay while attending to their loved ones who are undergoing heart treatment at the Centre.

The site was previously an empty courtyard. The conversion of this area into a landscaped park was to meet the following objectives and provide for the following benefits:

- Create a greater awareness for and promotion of our green environment
- Provide for, in an area outside the hospital wards, a tranquil and peaceful environment for the heart patients, where they can relax and to recuperate, and to enjoy the greenery together with their accompanying relatives
- Provide a green lung for the doctors and other healthcare providers and an environment where they can relax and recharge in order to enhance their works in the provision of medical care to the patients
- As this is a high profile hospital frequently visited by Ministers, VIPs and other dignitaries, the project will enhance the Rotary Brand and create better public awareness of the works we do in Rotary – in doing good in the world.

Community Service Project

Matching Grant Project 78787
Solar Lighting System Project
At Rumah Panggang, Sri Aman Division Sarawak, Malaysia

Goal / Purpose of Project

The purpose of this project is to provide electricity needs to the indigenous rural Iban community at Rumah Panggang, Batang Ai, Sri Adam Division, Sarawak, Malaysia.

Rumah Panggang is about 250km from the capital of Sarawak state, Kuching. It is a very inaccessible Iban longhouse with 10 doors and minimal basic amenities. Water is sourced by diverting nearby shallow streams. Electricity supply is provided by a government sponsored diesel generator set. However, its used is rationed due to the difficulty in sourcing and high cost of diesel supply.

The Solar power project is expected to overcome the logistical challenge of bringing diesel to such an isolated location on a regular basis. The project was implemented in Rotary year 2013-2014, it has now provided a small amount of electricity independently to individual families of the community for basic lighting at any time.

Beautiful garden for heart patients to relax, courtesy of Rotary Clubs

SARAWAK: Heart patients at Sarawak General Hospital's Heart Centre can relax and enjoy a green and beautiful landscaped garden thanks to the Rotary Club of Sarawak, Sarawak, Sabah, and Brunei.

The Rotary Foundation's Landscaping for Health project outside the hospital ward also provides a green space for doctors, nurses, and hospital staff to relax and unwind, he said yesterday.

The project was initiated in conjunction with Rotary's 2005 Free Rotarians (Club) Month. It is a tradition for the club to meet and organize a community project and in this project, each Rotary club in Sarawak contributed RM1,000.

The Sarawak Heart Foundation, which is closely associated with the Heart Centre, has also generously contributed to the project by donating up to 50% of the project cost. The garden cost about RM10,000.

Project chairman (Sarawak) Steve Ng said a landscaping would help to maintain the garden for at least a year until the hospital could incorporate maintenance into its annual budget.

The project is a stellar example of what can be achieved if the public and private sector and non-governmental organizations worked together towards the betterment of local community, he said.

Rotary International is the world's first service club organization with more than 1.2 million members in 11,000 clubs worldwide.

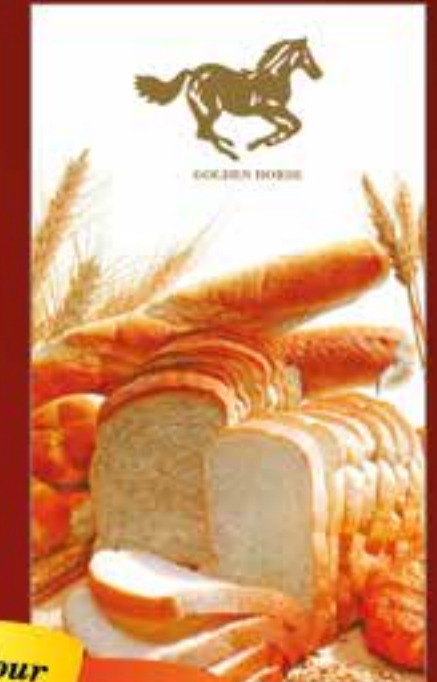

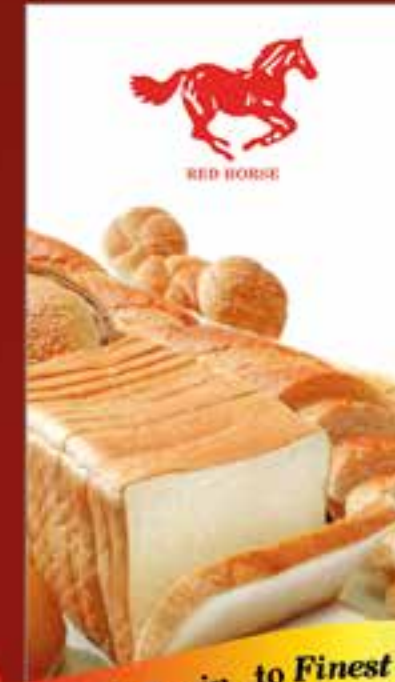

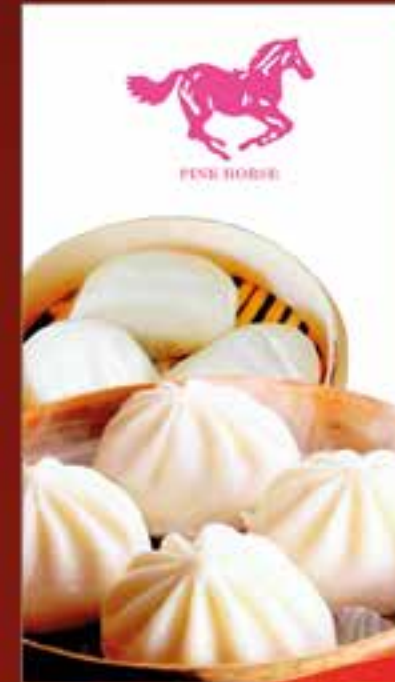

Rotary club members are volunteers who work locally, regionally and internationally to combat hunger, improve health and sanitation, provide education and job training, promote peace and eradication of polio under the motto "Service Above Self".

SLEEK LINEAR

Sleek linear is the pinnacle of modern design. Precise lines, seamless surfaces with handle-less designs with no protruding shapes create the sleek lines in dramatic yet minimalist design statements.

The overall theme sits comfortably between subtle sophistication and avant-garde attitude.

RUSTIC COUNTRY

Traditional design takes a dive into a fresher, more relaxed realm with classic elements. Our classic designs evoke images of understated elegance and may even offer hints of vintage or baroque elements, while rich earth tones create a homey atmosphere.

The results?
A friendly and cosy theme that exudes comfort and warmth.

CONTEMPORARY CHARM

Our take on contemporary invites customers into a world where modern sophistication is refreshed with charming accents.

The simplicity, subtlety and clean lines with obvious handle or door pull creates a charming contemporary design. The overall theme is distinctive and chic yet absolutely delightful.

NAIM
A Multi-Award Winning Developer & Contractor

BUILDING UPON YOUR VISION

At Naim, we don't believe in building just residential and commercial properties. We believe in creating vibrant, people-friendly communities, where everyone wants to be.

With Sarawak Corridor of Renewable Energy (SCORE) being the main development thrust for Sarawak focused on driving growth in the State, our developments are one of the best investments you could make.

So when you become a part of the Naim Community, you don't simply buy a property. You buy a home or a business premises, in the right location, designed and built to international standards and with good investment potential.

In short, you buy a product of your vision.

After all, we focus on the most important aspect of all – YOU.

Welcome to your world.

WHAT IS SKYWAY VSAT SERVICES?

SkyWay is a comprehensive VSAT service that provides interactive Broadband IP (Internet and Intranet) access. It provides superior data and voice services for businesses requiring connectivity between their Headquarters and branch offices. SkyWay operates on the C-band frequency, making it a robust service that is not affected by adverse weather conditions.

SkyWay supports customers' requirements across industries, be it the oil and gas sector, agriculture, financial or even the public sector. It caters to customers with high bandwidth requirements whilst also supporting customers with transactional applications that require lesser bandwidth. Customers in both urban and remote/rural areas will find SkyWay to be an ideal way of getting reliable communications.
